### SUMMARY

Flutter-centric Software Engineer specializing in scalable apps using **BLoC**, **Clean Architecture**, **Dio**, **Retrofit**, **Freezed**, **JSON Serializable**, **GetIt**, and **Dartz**, with advanced networking.

Expert in state management, dependency injection, and domain-driven Flutter architecture for clean, testable production apps

Backend experience with Django & FastAPI, building Dockerized **microservices** on AWS.

### TECHNICAL SKILLS

- Architecture: Clean Architecture, Microservices
- State Management: BLoC, Dependency Injection
- Networking: Dio, Retrofit, Advanced API Handling
- Data Modeling: Freezed, JSON Serializable, Immutable Models
- Backend Systems: Django, FastAPI, REST APIs, WebSockets
- Cloud & DevOps: Docker
- Tools & IDEs: VS Code, GitHub, Postman, GitHub Copilot

### PROFESSIONAL EXPERIENCE

#### Flutter Developer Intern - Reliance Jio Platform Limited

September 17 2025 - Present

- Designed efficient search functionality using **StreamTransformers** for **debouncing**, significantly improving performance and user experience in Flutter applications.
- Implemented robust state management using **BLoC** and **Cubit**, choosing Cubit for event-light flows to maintain simplicity and clarity.
- Enhanced overall UX with Flutter animated widgets and transitions, while maintaining **Clean Architecture**, immutable models with **Freezed**, and scalable, maintainable codebases.

#### Python Django Intern - Wesalvator

April 25 - Aug 7

- Developed scalable backend services using Django and FastAPI within a microservice architecture.
- Implemented **rate limiting**, **load balancing**, and **load sharing**; containerized deployments with Docker for production.

### PROJECTS

#### Blockchain-Based E-Voting System

Ethereum, Django, DRF, Ganache, Solidity, JavaScript

- Built a decentralized voting platform using Ethereum smart contracts and Django backend.

#### E-Commerce Website with Recommendation System & Auction

React, Django, DRF, Celery, Redis, Django Channels, PostgreSQL

- Integrated product recommendations , auction for premium items and background task handling via Celery.

#### Real-Time Chat App with Encryption & File Sharings

React, Django, DRF, Channels, Redis, JWT, Docker

- Built a real-time chat app with QR contact adding, file sharing, and 2FA authentication.
- 

#### Freelance Project : Vibe-Tribe-Travels Client Website

React , Js , HTML , CSS , Bootstrap

- Develop a website for client for their tourism business

Website Link : <https://vibe-tribe-travels.vercel.app/>

### EDUCATION

B.E. CSE(AI & ML) 2022 - 2026

Smt. Indira Gandhi College Of

Engineering CGPA : 9

11<sup>th</sup> - 12<sup>th</sup>

2020 - 2022

B. K. Birla College

### ADDITIONAL INFORMATION

- Certifications: Advanced Excel
- Languages: English, Hindi , Marathi
- Hobbies : Cricket , Swimming
