SUMMARY

Innovative and adaptable Software Engineer with a focus on full-stack development and scalable system design. Skilled in Python and JavaScript, with strong experience in backend and frontend technologies, microservice architecture, and cloud-based deployments. Passionate about building efficient solutions using Docker and AWS.

TECHNICAL SKILLS

- Technologies: Python, JavaScript, , Microservices
- Frontend: React, HTML, CSS, JavaScript, Bootstrap , Tailwind
- Backend: Django, Django REST Framework, FastAPI , channels
- DevOps & Cloud: Docker, Jenkins, AWS
- Databases: PostgreSQL, MySQL, MongoDB, Redis
- Tools: GitHub, VS Code, Cursor IDE, GitHub Copilot, ChatGPT , Postman , etc.

PROFESSIONAL EXPERIENCE

Python Django Intern - Wesalvator

April 2025 – August 2025

- Developed scalable backend services using Django and FastAPI within a microservice architecture.
- Implemented rate limiting, load balancing, and load sharing; containerized deployments with Docker for production.

Machine Learning Intern - Excel R

January 1 2025 - March 31 2025

- Built and evaluated machine learning models with scikit-learn, focusing on regression and classification tasks.
- Worked on data preprocessing and participated in full-cycle ML projects, including deployment.

Business Development Specialist - Younity Pvt Ltd

August 1, 2024 – August 31 2024

- Built and evaluated machine learning models with scikit-learn, focusing on regression and classification tasks.
- Worked on data preprocessing and participated in full-cycle ML projects, including deployment.

PROJECTS

Blockchain-Based E-Voting System

Ethereum, Django, DRF, Ganache, Solidity, JavaScript

- Built a decentralized voting platform using Ethereum smart contracts and Django backend.
- Ensured vote integrity and auditability through blockchain integration.

E-Commerce Website with Recommendation System & Auction

React, Django, DRF, Celery, Redis, Django Channels, PostgreSQL

- Developed a full-stack site with real-time updates and user authentication.
- Integrated product recommendations , auction for premium items and background task handling via Celery.

Real-Time Chat App with Encryption & File Sharings

React, Django, DRF, Channels, Redis, JWT, Docker

- Built a real-time chat app with QR contact adding, file sharing, and 2FA authentication.
- Used WebSockets via Django Channels and containerized with Docker.

College Concession Website

Django, HTML, CSS, JavaScript

- Developed a portal to automate the student concession
- Enabled streamlined communication between students and administration.

EDUCATION

B.E. CSE(AI & ML) 2022 - 2026

Smt. Indira Gandhi College Of Engineering

11th - 12th

2020 - 2022

B. K. Birla College

ADDITIONAL INFORMATION

• **Certifications:** Machine learning & Data Analyst , Advanced Excel , Gen AI certification

• **Languages:** English, Hindi , Marathi
